Tentative Outline

Special Thematic Issue for the journal

Title of the Thematic Issue: The threat to nursing staff due to exposure to patients with viral diseases

Guest Editor:
Prof. Dr. Waled Morsy El-Senousy
Professor of Virology
Head of Environmental Virology Lab., Water Pollution Research Department, Environmental Research Division
Head of Food-Borne Viruses Group, Centre of Excellence for Advanced Sciences
National Research Centre (NRC),
33 El-Buhouth st., Dokki, Giza, Egypt
e-mail address: waledmorsy@hotmail.com
Telephone: 0020233371499
Fax: 0020233370931

Scope of the Thematic Issue: Nursing staffs face a big threat through dealing with patients with viral diseases. Different viral groups with different routes of transmission such as enteric viruses (rotaviruses, adenoviruses, noroviruses, hepatitis A and E viruses, astroviruses, polyomaviruses, torque tino virus, Coxsackieviruses, and echoviruses), respiratory viruses (influenza viruses, parainfluenza viruses, respiratory syncytical viruses, and coronaviruses), blood transmitted viruses (hepatitis C viruses, Hepatitis B viruses, and Acquired immunodeficiency syndrome (AIDS), and other viruses like papillomaviruses, herpes viruses, cytomegalovirus, and rubella virus represent real threat to nursing staffs.

Keywords: enteric viruses, respiratory viruses, blood transmitted viruses, nursing staffs, viral routes of transmission, threat

Sub-topics:
The sub-topics to be covered within the issue should be provided:

- History of infection of nursing staffs with different viral groups.
- Direct and indirect routes of infection for nursing staff.
- Rapid detection methods to detect, genotyping, and serotyping of viruses in hospitals inpatients and outpatients.
- New methods for treatment of medical cotton and gauze with antiviral materials to decrease the opportunity of infection of nursing staffs.
- Necessary vaccination for nursing staffs.
- Treatment protocols of nursing staffs after viral infection.
- The importance of personal protective equipment.

Tentative titles of the articles and list of contributors:

Tentative titles of the articles and list of contributors with their names, designations, addresses and
email addresses should be provided.

➢ History of infection of nursing staffs with different viral groups.
➢ Direct and indirect routes of infection for nursing staff.
➢ Rapid detection methods to detect, genotyping, and serotyping of viruses in hospitals inpatients and outpatients.
➢ New methods for treatment of medical cotton and gauze with antiviral materials to decrease the opportunity of infection of nursing staffs.
➢ Necessary vaccination for nursing staffs.
➢ Treatment protocols of nursing staffs after viral infection.
➢ The importance of personal protective equipment.

1- Abdullelah Al Thobaity
Nursing Department, Applied Medical Sciences Collage
Ta’if University
P.O. Box 888, Hawiyah, Ta’if (Saudi Arabia)
a.thobaity@tu.edu.com

2- Dr Seham Gouda Aneen Address: Egypt , Benha E.mail: dr.seham_gouda@hotmail.com

3- Dr. Yehia Abdelghaffar Moustafa Seida, Community Medicine Department, Faculty of Medicine, Alexandria University, Egypt E-mail addresses: yehiaghaffar@hotmail.com

4- Iturriza-Gómara M., Institute of Infection and Global Health, and NIHR Health Protection Research Unit in Gastrointestinal Infections, University of Liverpool, Liverpool, UK Miren Iturriza-Gómara, PhD, FRCPath, Clinical Infection Microbiology and Immunology Department, Institute of Infection and Global Health, University of Liverpool, 8 West Derby Street, Liverpool L69 7BE, UK. Tel: +44 151 7959629; e-mail: ku.ca.looprevil@aramoG-azirrutI.M

5- Dinah Gould Professor in applied health, City University, London d.gould@city.ac.uk

6- H. Tavan, Clinical Research Development Unit, Shahid Mostafa Khomeini Hospital, Ilam University of Medical Sciences, hamedtavan@gmail.com

7- Tahissa Frota Cavalcante
Ph.D. Universidade da Integração Internacional da Lusofonia Afro-Brasileira (UNILAB), Acarape-CE, Brazil. e-mail: tahissa@ig.com.

Marcos Venícios de Oliveira Lopes
Ph.D. Universidade Federal do Ceará. Fortaleza-CE, Brazil. e-mail: marcos@ufc.br.

Emiliana Bezerra Gomes
Ph.D candidate. Universidade Estadual do Ceará, Professora Assistente da Universidade Regional do Cariri (URCA). Fortaleza-CE, Brazil. e-mail: emiliana.bg@hotmail.com.

Célida Juliana de Oliveira
Ph.D. URCA, Crato-CE, Brazil. e-mail: celidajuliana@yahoo.com.br.
8-Neil Wigglesworth is director, infection prevention and control, Guy’s and St Thomas’ Foundation Trust, London, and immediate past president, Infection Prevention Society.

9-Zhilai Zhou

The Spine Department, Orthopaedic Center, Guangdong Second Provincial General Hospital, Guang Zhou, Guangdong Province, China

e-mail: zhouzhilainba@163.com

10-Kuei-Ru Chou PhD,

School of Nursing, College of Nursing, Taipei Medical University, No.250, Wu-Hsing Street, Taipei 110, Taiwan. Tel.: +886 2 27361661x6300; fax: +886 2 2377-2842.

e-mail: kueiru@tmu.edu.tw

Schedule:

Thematic issue submission deadline: 15 October 2022.
